Welcome from the organizers

Fish skeletal biology is concerned with the mechanisms involved in the evolution, development, adaptation and maintenance of the skeleton of the majority of the vertebrates. It takes advantage from the growing interest in teleosts as model organisms for developmental and biomedical research, such as zebrafish and medaka, but also from the increasing number of fish species used in aquaculture. As it is always the case in science, there is amazing progress and at the same time we are far from understanding all aspects of fish skeletal biology. Understanding the fish skeleton requires insights from disciplines such as Palaeontology, Evolutionary and Developmental Biology, Morphology, Physiology, Nutrition, Ichthyology, Biomechanics, Systematics, Biomineralisation, Genomics and Proteomics. There is clearly a demand for more interdisciplinary research. The 3rd international conference on *Interdisciplinary Approaches in Fish Skeletal Biology* is meant as a platform to establish just that kind of interdisciplinary research! It is organized as a conference with oral and poster presentations, but foremost it is a forum for discussions, for the exchange of ideas and hypotheses. The previous two conferences have been published in two volumes of the Journal of Applied Ichthyology, which provide a unique overview about the current status of fish skeletal research. We continue this series of conference proceedings and thus we offer again the possibility to all participants to publish their contributions as short articles. We thank all participants for coming to the 3rd conference on Interdisciplinary Approaches in Fish Skeletal Biology and welcome you all to Tavira. We also thank our sponsors for supporting this conference.

We wish you a fruitful and scientifically stimulating conference!

Detailed programme

DAY 1: Monday April 22

20.30 **Dinner**

09.20	WELCOME BY THE ORGANISERS			
OPENING LECTURE Chair: Ekker M				
09.30	Modularity in development and evolution of the head skeleton Kimmel CB			
10.40	Coffee break			
Chair: Flik	SION 1. EVOLUTION AND FUNCTION OF FISH SKELETAL TISSUES			
11.00	Cartilage canals in the skeletons of sharks and rays: Morphology, homology and putative role in mineralization <u>Dean MN</u> , Blumer MJF, Adriaens D, Omelon S			
11.25				
11.50	Experimental evidence of the role of heterochronies in teleost evolution Kapitanova DV, Shkil FN			
12.15	Can acellular bone remodel? Atkins A, Habegger ML, Motta PJ, Kalish N, Dean M, Currey JD, <u>Shahar R</u>			
12.40	Lunch break			
Chair: Gui	SION 2. EVO-DEVO OF THE DENTITION AND THE PHARYNGEAL SKELETON nter HM			
14.00	Regulation of tooth replacement in the zebrafish: The role of Wnt signaling Huysseune A, Dam Thi MT			
14.25	Aspects of tooth replacement in a basal actinopterygian, <i>Polypterus senegalus</i> Vandenplas S, <u>De Clercq A</u> , Huysseune A			
14.50	Old, new and new-old concepts about the evolution of teeth Witten PE, Sire J-Y, Huysseune A			
15.15	Developmental genetic analysis of evolved head skeletal patterning in sticklebacks Miller CT, Glazer AM, Cleves PA, Ellis NA, Erickson PA			
15.40	Coffee break			
	SION 3. DEVELOPMENT AND REGENERATION OF THE DERMAL SKELETON menko M-A			
16.00	Identification of osteogenic compounds using elasmoid scales of sp7:luciferase transgenic zebrafish Metz JR, De Vrieze E, Peeters BWMM, Flik G			
16.25	An amputation resets positional information to a proximal identity in the regenerating zebrafish caudal fin Azevedo AS, Sousa S, Jacinto A, Saúde L			
16.50	The cranial lateral line canal system as a module of the dermatocranium of bony fishes: Sensory adaptation via heterochrony Webb JF			
17.15	Evolution of a morphological innovation the pufferfish beak Smith MM, Johanson Z, Fraser GJ, Healy C, Britz R			
18.00	POSTER SESSION 1: EVO-DEVO OF THE SKELETON and SKELETAL MALFORMATIONS (Wine tasting)			

Day 2. Tuesday April 23

ORAL SES	SSION 4. ESSENTIAL NUTRITIONAL FACTORS FOR SKELETAL DEVELOPMENT Shert E				
09.00	Skeletal malformations in <i>Solea senegalensis</i> fed with diets using different <i>Artemia</i> enrichment products				
	de Azevedo AM, Losada AP, Barreiro A, Barreiro JD, Ferreiro I, Riaza A, Vázquez S, Quiroga MI				
09.25	Bone development in Atlantic cod (<i>Gadus morhua</i>) larvae fed either natural zooplankton or industry standard enriched rotifers and <i>Artemia</i> <u>Lie KK</u> , Sæle Ø, Hamre K, van der Meeren T, Moren M				
09.50	High dietary arachidonic acid levels affect the process of eye migration in pseudo-albino Solea senegalensis post-larvae				
10.15	Boglino A, Wishkerman A, Darias MJ, Estévez A, Andree KB, Gisbert E The effects of dietary P level on vertebral metabolism in rainbow trout (Oncorhynchus mykiss) Deschamps M-H, Bourdon B, Le Luyer J, Poirier Stewart N, Proulx E, Sire J-Y, Witten PE, Bureau DP, Vandenberg GW				
10.40	Coffee break				
ORAL SES Chair: Mi	SSION 5. MOLECULES AND MOLECULAR DEVELOPMENT OF THE FISH SKELETON ller CT				
11.00	Molecular investigation of mechanical strain-induced phenotypic plasticity in an acellular bone				
	Gunter HM, Fan S, Xiong F, Franchini P, Fruciano C, Meyer A				
11.25	In vivo imaging of osteoblast-osteoclast interaction during bone degeneration and repair in a medaka model for osteoporosis				
11.50	Büttner A, To TT, Yu TS, Renn J, Willems B, Sundaram S, Dasyani M, Vyas H, Witten PE, Huysseune A, Winkler C Understanding the genetic basis of skeletogenesis in fish using large scale genetic screens and				
11.50	high-throughput mapping Henke K, Boldt H, Harris MP				
12.15	Hox cluster: insights into fish temporal colinearity				
	Monteiro AS, Gonçalves L, Freitas R, Palmeirim I, Casares F				
12.40	Lunch break				
	CHANG BARCHANHONAC OF CIVELETAL BAALFORNAATIONIC				
	SSION 6. MECHANISMS OF SKELETAL MALFORMATIONS senthal H				
ORAL SES Chair: Ros 14.00	senthal H Skeletal malformations in Senegalese sole (<i>Solea senegalensis</i> Kaup, 1858): Gross morphology and radiolographic correlation				
Chair: Ro: 14.00	senthal H Skeletal malformations in Senegalese sole (<i>Solea senegalensis</i> Kaup, 1858): Gross morphology and radiolographic correlation Losada AP, de Azevedo AM, Barreiro A, Barreiro JD, Ferreiro I, Riaza A, Quiroga MI, Vázquez S				
Chair: Ro	Skeletal malformations in Senegalese sole (<i>Solea senegalensis</i> Kaup, 1858): Gross morphology and radiolographic correlation Losada AP, de Azevedo AM, Barreiro A, Barreiro JD, Ferreiro I, Riaza A, Quiroga MI, Vázquez S Exploration of rainbow trout (<i>Oncorhynchus mykiss</i>) vertebrae transcriptome Le Luyer J, Deschamps M-H, Proulx E, Poirier Stewart N, Droit A, Robert C, Vandenberg GW				
Chair: Ro: 14.00	Skeletal malformations in Senegalese sole (<i>Solea senegalensis</i> Kaup, 1858): Gross morphology and radiolographic correlation Losada AP, de Azevedo AM, Barreiro A, Barreiro JD, Ferreiro I, Riaza A, Quiroga MI, Vázquez S Exploration of rainbow trout (<i>Oncorhynchus mykiss</i>) vertebrae transcriptome Le Luyer J, Deschamps M-H, Proulx E, Poirier Stewart N, Droit A, Robert C, Vandenberg GW Implementing a study on reared Siberian sturgeon <i>Acipenser baeri</i> axial deformities: First observations				
Chair: Ros 14.00 14.25 14.50 15.15	Skeletal malformations in Senegalese sole (<i>Solea senegalensis</i> Kaup, 1858): Gross morphology and radiolographic correlation Losada AP, de Azevedo AM, Barreiro A, Barreiro JD, Ferreiro I, Riaza A, Quiroga MI, Vázquez S Exploration of rainbow trout (<i>Oncorhynchus mykiss</i>) vertebrae transcriptome Le Luyer J, Deschamps M-H, Proulx E, Poirier Stewart N, Droit A, Robert C, Vandenberg GW Implementing a study on reared Siberian sturgeon <i>Acipenser baeri</i> axial deformities: First observations Leprévost A, Brunel O, Sire J-Y Radiological studies on vertebral deformities in triploid Atlantic salmon (<i>Salmo salar</i>) Fraser TWK, Hansen T, Fleming M, Sambraus F, Fjelldal PG				
Chair: Ros 14.00 14.25 14.50 15.15	Skeletal malformations in Senegalese sole (<i>Solea senegalensis</i> Kaup, 1858): Gross morphology and radiolographic correlation Losada AP, de Azevedo AM, Barreiro A, Barreiro JD, Ferreiro I, Riaza A, Quiroga MI, Vázquez S Exploration of rainbow trout (<i>Oncorhynchus mykiss</i>) vertebrae transcriptome Le Luyer J, Deschamps M-H, Proulx E, Poirier Stewart N, Droit A, Robert C, Vandenberg GW Implementing a study on reared Siberian sturgeon <i>Acipenser baeri</i> axial deformities: First observations Leprévost A, Brunel O, Sire J-Y Radiological studies on vertebral deformities in triploid Atlantic salmon (<i>Salmo salar</i>) Fraser TWK, Hansen T, Fleming M, Sambraus F, Fjelldal PG Coffee break				
Chair: Ro: 14.00 14.25 14.50 15.15 15.40 ORAL SES	Skeletal malformations in Senegalese sole (<i>Solea senegalensis</i> Kaup, 1858): Gross morphology and radiolographic correlation Losada AP, de Azevedo AM, Barreiro A, Barreiro JD, Ferreiro I, Riaza A, Quiroga MI, Vázquez S Exploration of rainbow trout (<i>Oncorhynchus mykiss</i>) vertebrae transcriptome Le Luyer J, Deschamps M-H, Proulx E, Poirier Stewart N, Droit A, Robert C, Vandenberg GW Implementing a study on reared Siberian sturgeon <i>Acipenser baeri</i> axial deformities: First observations Leprévost A, Brunel O, Sire J-Y Radiological studies on vertebral deformities in triploid Atlantic salmon (<i>Salmo salar</i>) Fraser TWK, Hansen T, Fleming M, Sambraus F, Fjelldal PG Coffee break SSION 7. FUNCTIONAL MORPHOLOGY IN AN EVOLUTIONARY CONTEXT				
Chair: Ros 14.00 14.25 14.50 15.15	Skeletal malformations in Senegalese sole (<i>Solea senegalensis</i> Kaup, 1858): Gross morphology and radiolographic correlation Losada AP, de Azevedo AM, Barreiro A, Barreiro JD, Ferreiro I, Riaza A, Quiroga MI, Vázquez S Exploration of rainbow trout (<i>Oncorhynchus mykiss</i>) vertebrae transcriptome Le Luyer J, Deschamps M-H, Proulx E, Poirier Stewart N, Droit A, Robert C, Vandenberg GW Implementing a study on reared Siberian sturgeon <i>Acipenser baeri</i> axial deformities: First observations Leprévost A, Brunel O, Sire J-Y Radiological studies on vertebral deformities in triploid Atlantic salmon (<i>Salmo salar</i>) Fraser TWK, Hansen T, Fleming M, Sambraus F, Fjelldal PG Coffee break SSION 7. FUNCTIONAL MORPHOLOGY IN AN EVOLUTIONARY CONTEXT ebb JF A comparison of olfactory area skeleton in three species from Oxudercinae subfamily				
14.25 14.50 15.15 15.40 ORAL SES Chair: We	Skeletal malformations in Senegalese sole (<i>Solea senegalensis</i> Kaup, 1858): Gross morphology and radiolographic correlation Losada AP, de Azevedo AM, Barreiro A, Barreiro JD, Ferreiro I, Riaza A, Quiroga MI, Vázquez S Exploration of rainbow trout (<i>Oncorhynchus mykiss</i>) vertebrae transcriptome Le Luyer J, Deschamps M-H, Proulx E, Poirier Stewart N, Droit A, Robert C, Vandenberg GW Implementing a study on reared Siberian sturgeon <i>Acipenser baeri</i> axial deformities: First observations Leprévost A, Brunel O, Sire J-Y Radiological studies on vertebral deformities in triploid Atlantic salmon (<i>Salmo salar</i>) Fraser TWK, Hansen T, Fleming M, Sambraus F, Fjelldal PG Coffee break SSION 7. Day 3. Wednesday April 24

ORAL SE	SSION 8. SKELETAL STRENGTH AND BIOMINERALISATION ean MN				
09.00	Restriction of biomineralization during zebrafish embryogenesis Apschner A, Logister I, Spoorendonk K, Schulte-Merker S				
09.25	Zebrafish caudal skeleton: Insights into vertebral mineralization and fusion events Bensimon-Brito A, Cancela ML, Cardeira J, Dionísio G, Huysseune A, Witten PE				
09.50	Identification and characterization of a new neural brain-to-bone pathway regulating bone mass accrual				
	Torres-Nuñez E, Ceinos RM, Suarez-Bregua P, Figueras A, Prober D, Cerdá-Reverter JM, Guerreiro PM, Cardoso J, Canário AVM, Power DM, Du SJ, Cañestro C, <u>Rotllant J</u>				
10.15	The role of zinc in bone development: too much of a good thing? Mackay E, Schulte-Merker S				
10.40	Coffee break				
	I L DISCUSSION Hall BK, Schulte-Merker S				
11.00	Questions that drive fish skeletal research All participants				
12.40	Lunch break				
20.30	Farewell barbecue				

Poster Session 1 (Monday April 22)

Improved phosphorus utilization in Atlantic salmon (Salmo salar L.) by acid hydrolysis of bone minerals in fish meal

Albrektsen S, Thorsen K, Bæverfjord G, Nygård H

Late appearance of ossification in the burbot (Lota lota) larvae

Appelbaum S, Gospic D, Jencic V, Kuzir S, Gjurcevic E

Spinal organization and deformities in cultured Senegalese sole (*Solea senegalensis*) at early stages of development

de Azevedo AM, Losada AP, Ferreiro I, Riaza A, Vázquez S, Quiroga MI

Vertebral counts in salmonids: The effect of ploidy, temperature and hybridization

Fleming MS, Hansen T, Skulstad OF, Fjelldal PG

Osteology of the axial skeleton of the bay snook *Petenia splendida* (Cichlidae)

Gisbert E, Alvarez-González CA

Fluctuating asymmetry of roach Rutilus rutilus and bleak Alburnus alburnus bones from area of the Chernobyl disaster

Lajus D, Yurtseva A, Arshavsky D

Squamation process and pattern in *Ballerus ballerus* at normal conditions and at manipulation of thyroidal status

Levina MA, Levin BA

Phosphatase activities in Atlantic salmon (Salmo salar) vertebral bone and scales: our findings from the past years

Lock E-J, Fjelldal PG, Ørnsrud R, Albrektsen S, Hansen T, Waagbø R

BMP2, 4 and 16: A new evolutionary perspective

Marques CL, Fernández I, Rosa J, Viegas MN, Cancela ML, Laizé V

Evaluation of skeletal deformities in the meagre reared under different nutritional conditions

Martins G, Pousão-Ferreira P, Gavaia PJ

The variation of somite and vertebral numbers in the spine of the zebrafish (Danio rerio)

Nguyen THT, Huysseune A, Witten PE

An interdisciplinary approach to the problem of temperature and vertebrae number in osteichthyans: The chick embryo perspective

Pais de Azevedo T, Witten PE, Huysseune A, Palmeirim I

Comparison of vertebral abnormalities diagnosis between X-rays and histology observations in juvenile rainbow trout fed with a low-phosphorus diet (*Oncorhynchus mykiss*)

Poirier Stewart N, Deschamps M-H, Huysseune A, Witten PE, Le Luyer J, Proulx E, Bureau D, Vandenberg GW

Dietary phosphorus in fresh and seawater – impacts on rapid growing farmed Atlantic salmon

Sambraus F, Breck O, Albrektsen S, Witten PE, Fontanillas R, Fjelldal PG

A field study on occurrence of vertebral deformities in Atlantic salmon (*Salmo salar* L.) from two rivers in Western Norway

Sambraus F, Fjelldal PG, Hansen T, Solberg M, Glover KA

Bony skull development in barbs (*Barbus sensu lato*; Cyprinidae; Teleostei) with different ploidy level Shkil FN, Smirnov SV

An exploratory study of using histological methods for bone staining in gilthead seabream (*Sparus aurata*) for detection of osteological pathologies

Thuong NP, De Wolf T, Witten PE, Huysseune A, Sorgeloos P, Adriaens D

Poster Session 2 (Tuesday April 23)

Use of reporter lines to visualize bone and cartilage phenotypes in the zebrafish *mef2ca*^{b1086} mutant line Adrião A, Gavaia PJ, Conceição N, Cancela ML

Imaging soft tissues during tooth development and replacement in the zebrafish (Danio rerio)

Bruneel B, Mushegyan V, Sharir A, Klein O, Huysseune A

Inducing a transient diabetic phenotype in zebrafish: can this model be used to study insulin related changes in bone metabolism?

Carvalho FR, Cardeira J, Simão M, Gavaia PJ, Cancela ML

Exogenous thiaminase expression as a method for the biological confinement of fish

Ekker M, Saxena V, Byers E, Boratynska S, Devlin R

Transcriptional regulation of the zebrafish Gla-rich protein 2 (grp2) gene

Fazenda C, Conceição N, Cancela ML

ZFB1 cell line, an in vitro tool to unveil mineralogenic and skeletogenic roles of vitamin K in zebrafish

Fernández I, Parameswaran V, Cancela ML, Laizé V, Gavaia PJ

Scale regeneration in sp7:nlsGFP transgenic zebrafish

Flik G, De Vrieze E, Metz JR

Vitamin K antagonist warfarin affects Danio rerio skeletal development and arterial calcification

Gavaia PJ, Santos A, Cancela ML, Fernández I

The dlx5a/dlx6a genes play essential role in the early zebrafish development of median skeletal fin and pectoral structures

Heude E, Shaikho S, Ekker M

Zebrafish tooth development and replacement in the absence of the transcription factor osterix

Huysseune A, Kague E, Soenens M, Witten PE, Fisher S

Fish systems to assess osteotoxicity of environmental pollutants

Laizé V, Gavaia PJ, Viegas MN, Caria J, Luis N, Cancela ML

Evolution and regulation of actinodin genes

Moses D, Zhang J, Lalonde R, Cornell N, Bleeker H, Akimenko M-A

Multipotency of blastema cells isolated from regenerating caudal fin of Sparus aurata

Parameswaran V, Laizé V, Cardeira J, Gavaia PJ, Cancela ML

Tg(sox4bΔC:HSE:GFP) zebrafish to analyze Sox4 function for bone formation in vivo

Renn J, Aceto J, Muller M

Molecular cloning, gene characterization and expression analysis of zebrafish miR-223

Roberto VP, Tiago DM, Gautvik K, Cancela ML

Transcriptional and post-transcriptional regulation of a fish cartilage-specific S100 protein

Rosa JT, Cancela ML, Laizé V

Can zebrafish be a valid model to study Paget's disease of bone?

Silva IAL, Conceição N, Cancela ML

 $\label{eq:molecular characterization of CBF} \textbf{B} \ gene \ and \ identification \ of \ new \ transcription \ variants: \ Implications \ for \ an extraction \ of \ constants \ density \$

function

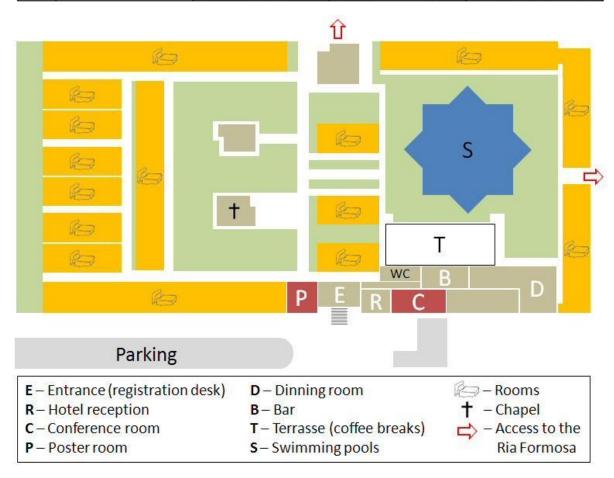

Simões B, Conceição N, Cancela ML

Note

Abstracts are listed in alphabetical order according to the last name of the first author.

Programme overview

	Sunday 21.04.2013	Monday 22.04.2013	Tuesday 23.04.2013	Wednesday 24.04.2013
09:00		Welcome	ORAL SESSION 4	ORAL SESSION 8
09:30		Opening lecture	Essential nutritional factors for skeletal development	Skeletal strength and biomineralisation
10:40		Coffee break	Coffee break	Coffee break
11:00		ORAL SESSION 1 Evolution and function of fish skeletal tissues	ORAL SESSION 5 Molecules and molecular development of fish skeleton	General discussion Questions that drive fish skeletal research
12:40		Lunch	Lunch	Lunch
14:00		ORAL SESSION 2 Evo-devo of the dentition & the pharyngeal skeleton	ORAL SESSION 6 Mechanisms of skeletal malformations	
15:40		Coffee break	Coffee break	Makes Apoll 25 to
16:00	Registration &	ORAL SESSION 3 Development & regeneration of the dermal skeleton	ORAL SESSION 7 Functional morphology in an evolutionary context	Note: April 25 is an holiday in Portugal
18:00	Welcome drink (18:00)	POSTER SESSION 1 (& wine tasting)	POSTER SESSION 2 (& beer probing)	
20:30		Dinner	Dinner	Farewell barbecue (20:00)
